

# Airport Closure Notice

**UPDATE: Jan 7, 2016**

[Ak-Chin Regional Airport](#) is starting a construction project that will install runway edge lighting. Since this work is at the edge of the runway, for the length of the runway, the airport will be **closed Monday through Thursday** starting January 5, 2016. The runway will be **open** for normal use on Friday morning at 7:00AM local time and remain open on Saturday and Sunday. The closure duration is estimated to be six weeks. Check [NOTAMs](#) for the most accurate info on the airport closure.

We regret the inconvenience but we think the added utility and safety the improvements create will be worth it. The project will also install an AWOS (automated weather station) and some apron lighting. This project is funded by the Ak-Chin Indian Community.
